PROMETHEUS

Patient Demo : TAB DNA

- A* 02:01 26:01
- B* 27:02 38:01
- C* 02:02 12:03
- DRB1* 15:01 16:01

- Date of typing : optional
- Laboratory: default lab value

PROMETHEUS

Patient Demo : Patient is registered

Validation:

Medical validation :

in the tabs ID – Medical – TX

PROMETHEUS

Patient Demo : patient is registered

DNA validation:

Immediate via “validate”

Or via list records to be validated

Failed validation: 2nd allele 16:01 is not correct :

correct DRB1 typing 2nd allele into 15:01 :
and validate again.
